Hussein Abbas Abdulzahra – Baghdad, Iraq 2009/04/11

I am a motivated and ambitious student who loves technology and programming. I want to apply for the Türkiye Scholarships because studying in Turkey will give me better education and more opportunities than I have in Iraq. This scholarship will help me learn more and improve my programming skills. After I finish my studies, I want to go back to Iraq and teach others, helping them learn programming too.

Experience

Front-End Developer – 2025

- Ishtar Institute (Volunteer): Completed and improved the institute's website using WordPress. Learned real-world web development, project management, and teamwork.

Trainer Assistant (Volunteer) | Aon — Programming Fundamentals Course | Nov 2025 – Dec 2025

- Assisted students with programming lessons, guided them through tasks, and explained concepts they didn't understand. Improved my teaching and communication skills.

Trainer Assistant (Volunteer) | Aon — Full-Stack Course | Nov 2025 – Dec 2025

- Helped students learn front-end (HTML, CSS, JS, React) and back-end (Node.js, Express, databases). Gained experience in mentoring, problem-solving, and teamwork.

Programming Challenge (Volunteer) | Super Nova | May 2025

- Built a Form Generator website in 4 days as a front-end developer with a team of 4. Learned teamwork, time management, and rapid development.

29-Day Challenge | Ramadan | Mar 2025

- Studied English daily for 29 days to build a learning habit. Improved self-discipline, consistency, and personal development skills.

Bootcamp Participant — Sulaymaniyah Programming Challenge Bootcamp — *2025, 4 days*

- Attended a 4-day bootcamp with other programming challengers from Sulaymaniyah.
- Participated in workshops on self-development, self-confidence, and breaking personal barriers.
- Collaborated with new people, enhanced teamwork skills, and learned strategies for personal growth.

Education

High School — Baghdad, Iraq
Fifth Grade of Preparatory School, Grade: 87 — May 2026 – Now

- Currently studying in the sixth grade of preparatory school.

Aon — Full-Stack Web Development Course — *Sep 2025 – Nov 2025*

- Learned full-stack web development, including React.js, HTML5, CSS3, JavaScript, Express.js.
- Gained experience with databases: PostgreSQL, MySQL, and modern UI/UX practices.
- Built small projects and applied technical concepts in practical exercises.

Cybersecurity Course — Aon — *2025*

- Learned the basics of cybersecurity, network security, and best practices for protecting data.
- Gained awareness of online threats and how to secure web applications.

- **Participation Certificate** — Advanced Cybersecurity Workshop –2025

Some of my projects

Soaps store website: This is a complete soap shop website that I built from scratch, including the back-end, front-end, database. However, it still needs some modifications Click to see.

Shopping Website: Developed a hands-on shopping website using Vue.js in 5 days.Gained experience in rapid development, problem-solving, and working under time constraints Click to see.

Cooking Website: Created a JavaScript-based cooking website in 7 days without using AI tools.Strengthened front-end skills and learned to build projects independently from scratch In 2024 Click to see.
